Drawings

The drawings (Figs. 1-3) were received on 12/14/06. These drawings are acceptable.

Reasons for allowance

Page 2

The following is an examiner's statement of reasons for allowance:

- 1. In response to Applicant's argument filed on 12/14/06, the rejection made in the last Office action on the Seo in view of Takashi reference is withdrawn.
- 2. None of the prior art disclosed or suggested to show the particular structure and/or the particular operation recited in these claims namely: "gate circuit ... in response to the precharging control signal before a data bit is input" in combination with "an output driver ... responsive to the output driving signal for precharging the data channel to a voltage level before the data bit is input" as recited in claim 1; "wherein responsive to a precharging control signal to precharge the data channel to a voltage level before a first data bit of the associated data bits is input" in combination "N-1 first gate circuit", "an N-1 output driver", "an NTH gate circuit" and "an NTH output driver" as recited in claim 7; "generating an output driving signal in response to the precharging control signal before a data bit is input" in combination with "precharging a data channel to a voltage level before the data bit is input using the output driving signal" as recited in claim 13; "precharging a data channel to a voltage level in response to a precharging control signal before a first data bit of the associated data bits is input" in combination with "inputting" method steps as recited in claim 17; "generating
